Selectmen of Northfield.

Report of Finance Committee

Your Committee met on January 23, 1933. The various articles in the Town Warrant were carefully considered and our recommendations follow the article, where we felt such recommendations would be helpful. Some articles required no comment by this committee.

We are very hopeful that the expenditures this year may show a substantial saving over last year and any helpful suggestions will be appreciated by this committee.

Report of Selectmen

We submit herewith a report of the various Town Officers and Departments for the year ending December 31, 1932.

Our expenses this year have been unusually large owing to repairs on Schell Bridge, the purchase of a Fire Truck and added expense in the Welfare Department.

We have been able to help in the Welfare work by cutting wood the greater part of which has been used by the Town Hall, Schools, Library, and in some families.

The Highway work under Chapter 90, which included the repairs on Schell Bridge was mostly done by local help.

The Fire Department appropriation was over drawn because of the extra expense incurred at the Tenney fire.

There is an unpaid bill in this account to the amount of \$81.79 for which you will be asked to make an appropriation at the annual Town Meeting.

Fire Companies were called from Hinsdale, N. H., Millers Falls, Turners Falls and Greenfield and all rendered excellent service.

Hinsdale and Millers Falls have not presented any bill for service at that time and we sincerely hope if the Northfield Fire Department can be of any help to these villages in the future they will respond as promptly as possible.

We believe economy should be the watchword at the annual Town Meeting and with this in mind it would seem that our appropriations could be reduced nearly as much as the cost of the repairs on Schell Bridge and the amount expended for a Fire Truck or approximately \$22,000.

Report of the Trustees

of Dickinson Memorial Library

For the Year 1932

Our library has experienced greater demand upon its resources this past year than formerly. Unemployment has made large demands upon most libraries throughout the land. People have needed books as never before, and have read them fully as much for self improvement as for entertainment. Occupational books have been called for as much as fiction. Our present equipment has served to meet this greater local demand to some degree. The Librarian's report will indicate that the trustees have tried to meet this demand as far as possible with the funds available.

We are especially gratified with the success of the children's room. The children crowd their room, not only to read the books appropriate to their years, but also to spend many happy hours in assembling the picture-puzzles, of which the library has a good supply. Citizens having puzzles to give away can find an appreciative place for such in the children's room. These puzzles are to be used only in the Library.

During this past year the Librarian has arranged many interesting exhibits of colonial objects on the tables in the main corridor. Due regard has been paid to the Washington Bi-centennial by the display of posters and by assembling our Washingtonia for convenient inspection and use.

The trustees find themselves again indebted to Mr. Charles E. Fairman, Architect of the Capitol, Washington, D. C., for gifts of valuable books, some of which contain matter of local interest.

The trustees are asking the town to appropriate \$900 for the use of the Library for the coming year.

Report of School Superintendent

To the School Committee and Citizens of the Town of Northfield:—

Herewith, I submit the annual report of the activities of the School Department for the fiscal year 1932. This is the eighth report of the present superintendent and covers the 196th year of the Public Schools of the Town of Northfield.

Part I — Organization

There have been no events of particular interest such as occurred last year but rather a steady attention to the details of school work. The problems arising from the closing of the Mountain School have been successfully met. The pupils are well located and making proper progress and the conveyors find no problems they do not successfully meet. Throughout the Schools few cases of friction have arisen and these have been promptly and happily met.

A few changes took place among the teachers. The High School corps remains the same. In the grades; Miss Mills resigned in June at the East and Miss Blodgett was transferred from the West to fill this vacancy. She resigned to be married and Miss Ruth S. Robinson, a graduate of the four-year course at Lowell took this place. Miss Palmer resigned from the West and Miss Gladys M. Bridge, of Keene Normal School was elected in her place. The vacancy in the lower room by the transfer of Miss Blodgett was filled by the election of Miss Natalie E. Moulton of Springfield, a graduate of Westfield. Miss Marion H. Taylor resigned to be married and Miss Ada I. Bready, a Westfield graduate took the place. In every case, the teacher selected has received the highest training offered anywhere and teacher-training has reached a higher plane in New England than anywhere else, here or abroad.

The Buildings:—A renewed activity on the part of the State Board of Public Safety sent a new Inspector to this part of the State and in accordance with his recommendations a number of changes have been made. A fire exit has been added to the lower floor of the Center

School with Panic bolts at the outside doors. Panic bolts at the East School and a smoke partition at the High School were installed as recommended. There remain some work on the exit at the West School, another exit from the lower floor at the Farms and lesser details in other buildings. An appropriation of \$350.00 is asked to complete this work.

New Steel desks have been placed in the lower room of the West School and in the First and Second Grade room at the Center. One-half the cost of the desks at the Center was met by the Belcher Fund.

A large amount of work has been done on the playground in the rear of the Center School which is much appreciated by the pupils. When the expense can be justified, the land in front of the building will be made into a lawn with a circular driveway.

In General:—For information about the details of School work; Medical and Nursing: Finance and Statistics; you are requested to turn to the special reports on those items.

We feel that this has been a year of real progress in all details of school work and in all departments of school organization. There must be real economy in school expenditures that the burden on the tax-payer shall be lightened as much as possible. The realization presses on us that each year in a child's life must mark real progress for the years of development are few and infinitely precious. We are building for the future of the child and for the ideals of our government and its institutions. We must look on the schools as an investment in the child for his own good and the good of the future.

The above Report, in three parts: Text, Statistics, Finances, forms a bare outline of the material aspect of our School System. Of the intellectual and spiritual development of our boys and girls, there is no possible method of measurement, but in this development is bound up the future of our Country and its institutions. Our schools are in excellent condition; in their organization, scholarship and discipline; and the buildings are in proper repair, inside and out. The ideals and morals of the students are very high, far above most towns in the State, and are a credit to the town and to its traditions. We do not flatter ourselves that the top has been reached; there is still opportunity for improvement in intellectual, ethical and material lines and this improvement we plan to achieve. The plan started six years ago is still in process of application and a further improvement is anticipated for the coming year.

MARION E. LILLY, R.N.

Report of School Physician

To the Board of Education—Northfield, Mass.

Assisted by the District Nurse, Mrs. Lilly, all the school pupils in the Town of Northfield were examined during the months of September and October.

With the purpose of a better examination in view, four more days were spent in these examinations than in any previous year.

The following defects were found:

Diseased tonsils 44, Scoliosis (curvature of the spine) 7, Heart defects 11, Not all diseased; Defective eyes 14, Pediculosis (Lice) 5, Scabies and Impetigo 8.

There is a noticeable reduction in all defects. This is due to better examinations, more follow up work by the school nurse, and better co-operation by the parents.

During the month of May a Toxin-Antotoxin Clinic was held in the Town Hall by the school physician and school nurse assisted by nurses and helpers. Eighty-eight children received the test. It is hoped this clinic will be given again as the occasion may demand.

In September the Chadwick Clinic was held in three different schools in town giving all children an opportunity to avail themselves of its benefits. The test given is called the Von Pirquet test for Tuberculosis. I am glad to report **no positive cases of Tuberculosis were found in this town.** This clinic was conducted by the State Sanatorium of Westfield, Mass., assisted by the school nurse, teachers and Board of Health.

All the school buildings have been carefully inspected and found to be in good sanitary condition.

It is again recommended that each parent provide the children with a thermos bottle filled with hot milk, hot malted milk, or hot soup for the noon lunch. If this is done the children will benefit to a large degree.

There have been a few minor accidents on the school grounds and first aid has been given without delay.

During the past year there have been very few diseases and none of an epidemic nature.

With the steady reduction of defects every year, it is hoped the parents will continue to co-operate with the Physical Department of the schools in building up a stronger resistance in our children and stronger physical bodies.

I wish to thank the Supt.; School Board; Teachers; Nurse and parents for co-operation during the past year.

Report of Cemetery Commissioners

Cemeteries have had the usual care. We ask for appropriation of three hundred dollars (\$300.00) for care of Cemeteries for 1933. We also ask for appropriation to finish fence at Northfield Farms cemetery. The Mount Hermon Cemetery fence was repaired in 1932, and the front part was painted two coats. At West Northfield Cemetery, the road in new part was graveled which made a great improvement.

Report of Fire Chief

During the year 1932 the Northfield Fire Department responded to 30 alarms. There was a loss of property taxed for \$8,375.00. In the four months that the new fire truck has been in use, property taxed for \$3,300.00 has been saved.

Eighteen of the alarms responded to were chimney fires. This shows there is still a need for property owners to give their chimneys more attention by keeping them in repair and cleaning them oftener.

Now that we have a new pumping outfit the property owners who have a supply of water near their buildings will find they have excellent protection. In a number of cases a good supply of water could be available by making a small reservoir in some of the smaller brooks. Any property owner who has water near his buildings and wishes to make a reservoir so that it can be used in case of fire will have the full co-operation of the fire department.

GALEN G. STEARNS
Chief of the Fire Department

Report of State Auditor

To the Board of Selectmen

Mr. Frank H. Montague, Chairman
Northfield, Massachusetts.

Gentlemen:

I submit herewith my report of an audit of the accounts of the town of Northfield for the year ending December 31, 1932, made in accordance with the provisions of Chapter 44, General Laws. This report is in the form of a report made to me by Mr. Edward H. Fenton, Chief Accountant of this Division.

Very truly yours,
THEODORE N. WADDELL
Director of Accounts

Director of Accounts
Mr. Theodore N. Waddell

Department of Corporations and Taxation
State House, Boston

Sir:

As directed by you I have made an audit of the books and accounts of the town of Northfield for the year ending December 31, 1932, and submit the following report thereon:

The financial transactions, as recorded on the books of the several departments receiving or disbursing money for the town or committing bills for collection, were examined, checked and verified.

The books and accounts of the town accountant were examined and checked in detail. The recorded receipts were compared with the receipts as entered in the treasurer's cash book, while the payments were checked with the selectmen's warrants and with the treasurer's recorded payments. The ledger appropriation accounts were compared with the town clerk's record of town meetings, and all other ledger accounts were checked with the available departmental records. The accounts were analyzed, a trial balance was taken off, and a balance sheet, which is appended to this report was prepared as of December 31, 1932. This balance sheet shows that the town is in an excellent financial condition.

The accounts of the town treasurer were examined and checked. The recorded receipts were compared with the records in the departments collecting money for the town, with the other sources from which payments were made into the town treasury, and with the accountant's ledger. The payments were checked with the treasury warrants and with the ledger accounts. The cash book was footed, cash on hand was verified by an actual count, and the bank balance was proved with a statement received from the bank.

The accounts of the tax collector were examined and checked. The commitment lists of poll, personal, real estate, motor vehicle excise, and old age assistance taxes were totaled and proved with the commitment warrants of the assessors. The collections, as recorded, were checked, the payments to the treasurer were verified by a comparison with the treasurer's cash book and the accountant's ledger, the abatements were compared with the assessors' record of abatements, and the outstanding accounts were listed and proved.

The outstanding accounts were further verified by mailing notices to a number of persons whose names appeared on the books as owing money to the town, the replies received thereto indicating that the accounts, as listed, are correct.

The financial accounts of the town clerk were checked. The recorded receipts for dog and sporting licenses were checked with the records of licenses issued, and the payments to the county treasurer, the town treasurer, and the Division of Fisheries and Game, respectively, were verified.

The surety bonds of the town clerk, treasurer, and tax collector for the faithful performance of their duties were examined and found to be in proper form.

The recorded receipts for licenses issued by the selectmen were checked with the records of licenses granted, and the payments to the treasurer were checked and verified.

The recorded receipts for rentals of town property were checked, and the payments to the treasurer were verified by a comparison with the treasurer's cash book.

The accounts of the sealer of weights and measures were checked. The recorded receipts were compared with the records of weights and measures sealed and adjusted, and the payments to the treasurer were verified.

The recorded receipts of the community nurse were checked and were compared with the payments to the treasurer.

The accounts of the health, public welfare, school, and cemetery departments were examined and checked. The records of charges and collections were verified, the recorded collections being checked with the payments to the treasurer and the outstanding accounts being listed and proved with the accountant's ledger.

The securities, including savings bank books, representing the investment of all trust funds, including those in the custody of the town treasurer, selectmen, and trustees, were examined and listed. The income from the funds was proved, and the payments were checked and verified, the funds being found to be as reported.

The recorded receipts of the librarian for fines and miscellaneous receipts were checked, and the payments to the treasurer were verified by a comparison with the treasurer's cash receipts.

The work of all departments has been performed with great care and accuracy, facilitating the progress of the audit.

Appended to this report, in addition to the balance sheet, are tables showing a reconciliation of the treasurer's cash, summaries of the tax and departmental accounts, as well as tables showing the transactions and condition of the trust funds.

During the process of the audit, I received the co-operation of all town officials, for which, on behalf of my assistants and for myself, I wish to express appreciation.

Respectfully submitted,

EDWARD H. FENTON,

EHF: CAB

Chief Accountant.
